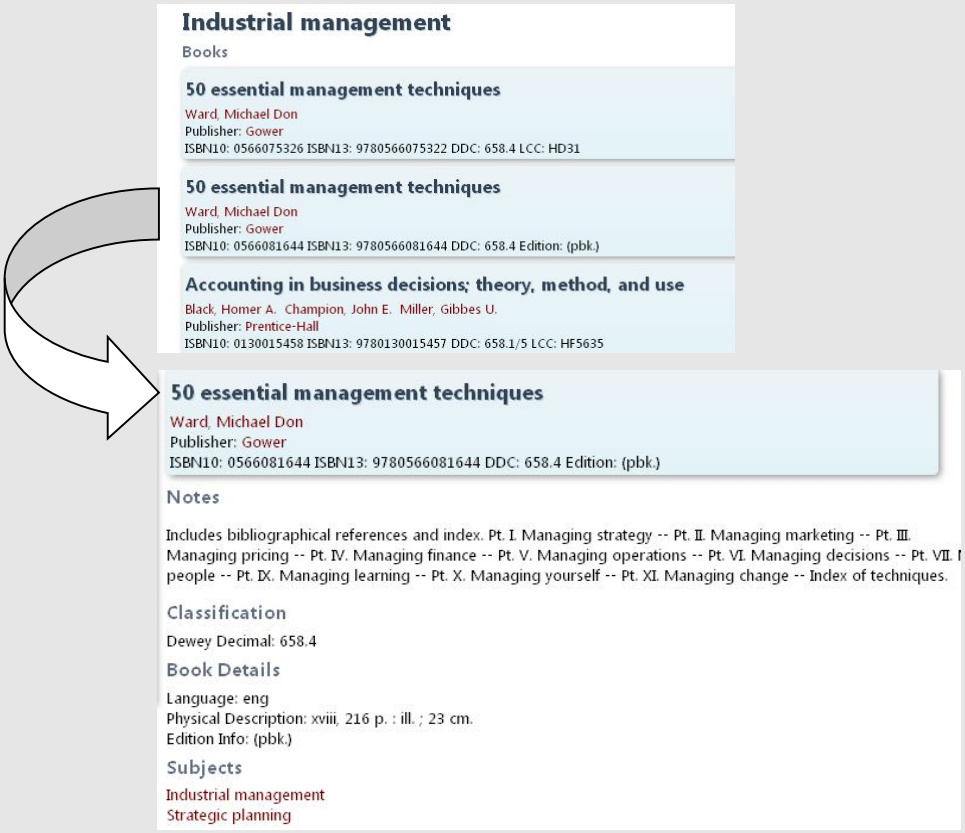
Brief History	ISBNdb.com is a website that attempts to build a free database of books by querying various libraries across the world for book data. ISBNdb.com was started its journey from 2001 as a hobby project by Andrew Maltsev.
Scope and Coverage	ISBNdb.com is a bibliographic database of books provides bibliographic information to individuals, book stores, librarians, and others etc. It contains more than 7,913,099 book title. Also covers near about 2,742,324 subject area,

2,189,637 authors, and 581,888 publisher publications.

Kind of Information

Entries are arranged under a broad subject and again under the sub-categories (within broad subject). An entry (hyperlinked title) provides detail bibliographic information, includes title, author name, publication year, ISBN, pagination, dimension, content, language, edition etc. An example is given below under broad subject 'Management' and under Management narrower subject 'Industrial management' for clear understanding.



Industrial management
