Index Copernicus International

Brief History

Index Copernicus (IC) is an online database of user-contributed information, including scientist profiles, as well as of scientific institutions, publications and projects established in 1999 in Poland, and operated by Index Copernicus International. The database, named according to name of great

person Nicolaus Copernicus . IC also offers the traditional abstracting and indexing of scientific publications.

### Scope and Coverage

Index Copernicus covers multidisciplinary area of science. In this database, the IC Journal Master List and ICI World of Journals list – contains currently over 43,114 journals from all over the world, including 700 journals from Poland. The journals registered in this database underwent rigorous, multidimensional parameterization, proving high quality. The Ministry of Science and Higher Education acknowledged the IC Journal Master List the Ministry’s evaluation process.

### Kind of Information

In this database IC Journal Master List provides a long list of scientific journals. Within the list, a particular entry (i.e. journal) provides detail bibliographic information such as title, author name(s), publisher, publishing country, DOI, website, language, ID and cover photo of journal etc. An example is given for clear understanding.

The screenshot displays a list of journals with their respective covers and bibliographic details. An arrow points from the 'Formalized Mathematics' entry in the list to a larger, detailed view of the same journal.

Journal Title	ISSN	GICID	Country	Language
Formalized Mathematics	1898-9934, 1426-2630	71.0000.1500.0590	PL	EN
Inżynieria Rolnicza	1429-7264	71.0000.1500.0658	PL	EN, PL
Circulation	0009-7322	71.0000.1500.6967	US	EN

**Formalized Mathematics**

English title: *n/d*  
ISSN: 1426-2630, 1898-9934  
GICID: 71.0000.1500.0590  
DOI: *n/d*  
Website: <http://mizar.org/fm/> <http://fm.mizar.org/>  
Publisher: Walter de Gruyter GmbH, Walter de Gruyter GmbH  
Country: PL  
Language of publication: EN

[Issues and contents](#)

One can search volume and issue wise contents by clicking this

Citation details against particular journal also present. Also with each journal description of journal, editorial and publisher information attached.

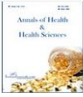

### **Special Features**

- Contact and feedback option present.
- Different scientific news update available.
- One can log-in to the IC Scientists group and publisher panel.

### **Arrangement Pattern**

In this database one can search journals according to alphabetical list of language and country name. After selection of language and country user can sort journal list via different category. e.g.:

By selecting English language and country as India then sort by ascending by title the following list appeared.

	Journal title: Annals of Health and Health Sciences ISSN: 2322-0422 GICID: <i>n/a</i> Country: IN Language: EN
	Journal title: Asian Man (The) - An International Journal ISSN: 0986-6884 GICID: <i>n/a</i> Country: IN Language: EN
	Journal title: Account and Financial Management Journal ISSN: 2456-3374 GICID: <i>n/a</i> Country: IN Language: EN
	Journal title: Astrocyte ISSN: 2349-4387, 2349-0977 GICID: <i>n/a</i> Country: IN Language: EN
	Journal title: Annals of Medical Physiology ISSN: 2456-8422

### **Remarks**

Index Copernicus International is an international, specialized platform for promoting scientific achievements, as well as supporting national and international collaboration between scientists, publishers of scientific journals and scientific entities.
