

## Home Page

The screenshot shows the homepage of the National Institute of Advanced Studies Library. At the top, there is a navigation bar with tabs for 'Simple', 'Advanced', 'Additional', and 'Browse'. Below this is a search interface with a search bar, a dropdown for 'Any Field', and a 'No of Records' indicator set to '10'. The 'Restricted By' section allows filtering by 'Database' (Books) and 'Document Type' (Audio Record, Books, Compact Disks, Data Cds, Kannada Books). The 'Sort By' section offers options like 'All', 'Between', 'Upto', 'After', and 'Selected'. A 'Click for alerts' button is located at the bottom of the main content area. The footer contains the copyright notice: 'Copyright © 2005 Libsys Ltd. Gurgaon. All rights reserved.'

## Brief History

The institution, based in Bengaluru, in the south Indian state of Karnataka, started functioning with Dr. Raja Ramanna as its founder director.

### **Scope and Coverage**

**National Institute of Advanced Studies (NIAS)** is a centre of higher learning in India engaged in interdisciplinary and multidisciplinary research in natural sciences, social sciences, arts and humanities. It was founded by J. R. D. Tata in 20 June 1988. The main objective of NIAS library has been to develop a well-balanced collection of books across disciplines in which our faculty is actively engaged in research. According to the library website the collection includes more than 16,500 books, 55 print journals, 3736 online journals, 2200 back volumes of journals and a small collection of CDs, DVDs, audio and video recordings. NSS and Census datasets on CDs have been acquired recently. As an associate member of UGC-Infonet Digital Library Consortium, the Library subscribes to journal collections of OUP, CUP, Taylor and Francis and JSTOR. Over the years, the research activities of the Institute have grown manifold and the library has been trying to keep pace with the expanding aims and activities of the Institute. The Library participates in resource sharing activities with all the major Libraries of Bangalore and elsewhere. The Library is an open reference Library and attracts a number of scholars from everywhere.

### **Kind of Information**

The primary mission of the library is to support the educational and research programmes of the University by providing physical and intellectual access to information. The library provides following type of search facilities for its users:

- Simple search;
- Advanced search;
- Additional search;
- Browsing of collection;
- Searching by ISBN;
- Searching by accession number;
- Full text search

In simple search process, users are able to search for documents by mentioning bibliographic fields like author, title, subject, ISBN, series, place of publication, publisher.

The user can make a simple search using this option also. The fields to be entered are Database, Field, Enter word(s) or phrase, Connector, Specify Year(s) of Publication etc. The following screen shots show it:

The image displays two screenshots of a library search interface. The left screenshot shows a search form with 'Database' set to 'Books etc' and 'Type of Doc' set to 'Books'. The right screenshot shows a 'PUBLISHING YEAR' section with radio buttons for 'All', 'Between', 'Upto', 'After', and 'Selected', and input fields for years, along with a 'clear' button and a 'Click for alerts' link.

The search result can be sorted by the options like Title, Author, Call No., year of publication (ascending or descending) etc.

Sort By

**SORT**       Sort By Title       UnSorted

**LOCATION(S)**       My Site  
 My Location  
 All Locations

The above search process produces a list of relevant documents to the search query. In this list users can access limited kind of bibliographic information namely Title of the work, name of the author, call number. All the titles in that list are hyperlinked with its bibliographic information which is presented at the right side of the web page. In this format bibliographic information mainly the title, author's name, edition, publication place, year and publisher, physical description, call number, subject are provided. The following screen shot shows it in details:
