Arrangement Pattern	In this dictionary images are arranged in alphabetic order and are organized under their initial alphabets. For examples under 'A', images like accordion, airplane, alarm clock, ambulance, anchor, angel etc. (with images) are arranged in alphabetic order. Also categories are arranged in alphabetic order in this dictionary. E.g.: Animals, Body part, Colour, Fruits etc. Under each category the images are also arranged alphabetically. E.g.: Under category "Fruits" images like apple, banana, cherry etc. are arranged in alphabetic order.
Remarks	It is a fun and useful site for brushing up on foreign language skills. The way it presents coloured pictures of various terms it is really attractive for the children. The only lacuna which troubles the users is the limited number of words and images.
