Under those broader topic narrower topics like aircraft design, vertical flight, new civil aircraft, commercial space, orbit, combat air craft etc.

### Kind of Information

This partially free digest provides aviation, aerospace, aeronautics and defense industry related articles. Articles are available with its title, author name, date of publication, primary source of information and little description. Also articles are present with a photograph. An example is given below via print screen.

The screenshot shows the top of an article on the AviationDaily website. The header includes the site logo and the tagline 'The Business Daily of the Scheduled Airline Industry Since 1939'. The article title is 'Air France Anticipates 2018 Narrowbody Aircraft Decision', written by Jens Flottau on April 20, 2017. Below the title are social media sharing buttons for Email, LinkedIn, Twitter, Google+, and Facebook, along with a 'Recommend 150' button and a 'COMMENTS 18' indicator. A photograph of an Air France Airbus A320neo is displayed. The text of the article begins with 'CHARLESTON, S.C.—Air France is preparing a request for proposals (RFP) for new narrowbody aircraft that will enable it to start replacing its current Airbus A320-family fleet. "It is clear that we have to make a decision next year," Nicolas Bertrand, Air France's vice president of fleet management, said. The airline would initially seek to replace the oldest A320s. Air France operates 117 A320 family aircraft, among them are 41 A320s. It also is one of the few ...'

Users can discuss about the article within a particular comment box (bottom of each article). e.g.:

The screenshot shows two user comments on the article. The first comment is from 'klaib@free.fr' dated April 21, 2017. The text of the comment reads: 'The "jet" technology was first developed by the Germans after the idea of a British citizen...was then "offered" to the US...You have composites parts in the A320, more in the A380, Boeing increased the pace. Airbus followed with the A350 and made some different choices. ( No gigantic oven, less elegant, maybe more affordable)'. Below the comment is a button that says 'Log In or Register to post comments'. The second comment is from 'egeorge@columbu...' dated April 25, 2017. The text of the comment reads: 'Britain developed jet technology the same time as the Germans.'. Below this comment is also a button that says 'Log In or Register to post comments'.

Related articles are available after each entry with hyperlinked list.(one can read full article if they are registered user.

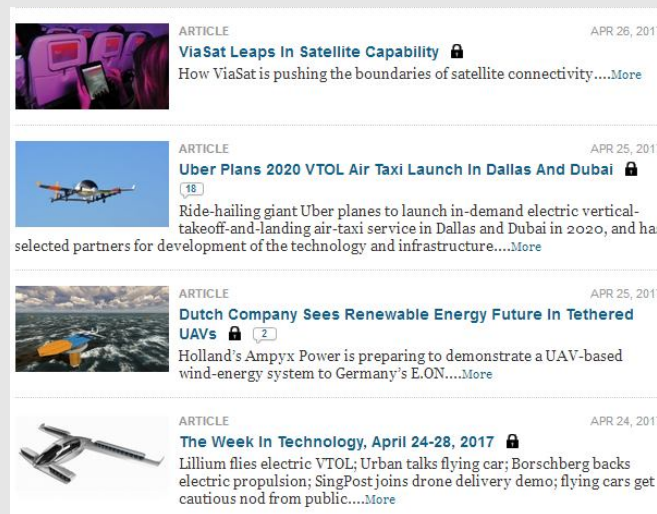

The screenshot shows a 'Related Articles' section with three entries. Each entry includes the article title, a comment count in a small box, and a lock icon. The entries are: 'Airlines Plan Long-Haul Narrowbody Routes' (46), 'Rafale Fighters Make Inroads Against U.S. Makers' (47), and 'Boeing's 747 Struggles Indicate Large-Aircraft Market Decline' (91). Below these is a fourth entry: 'In Boeing Aircraft, Qatar Airways Buys The Best, Says CEO' (140).

### ***Special Features***

- Recent posts are present.
- RSS news feed available.
- 100-years archives also attached.
- Contact and feedback option available with proper form.
- Links to social networking sites like Facebook, Twitter, Google+ and so on. User can share each article via social networking sites.
- One can subscribe newsletter through proper way.
- Site map included for easy use.
