Brief History

The idea for Travellerspoint in a MSN Messenger session in the middle of 2002.

Scope and Coverage

Travellerspoint is one of the webs largest and most active travel communities with members representing every country in the world. More than 30,000 blogs have shared 175,000 stories to date and over 1.4 million photos have been posted, 50,000 accommodation booking options available on the site. The goal of Travellerspoint is to create an international meeting point for travellers worldwide, whether they are

planning their travels, currently travelling or have returned from their travels and want to stay in touch with (or find) those travel friends they met while travelling in the past.

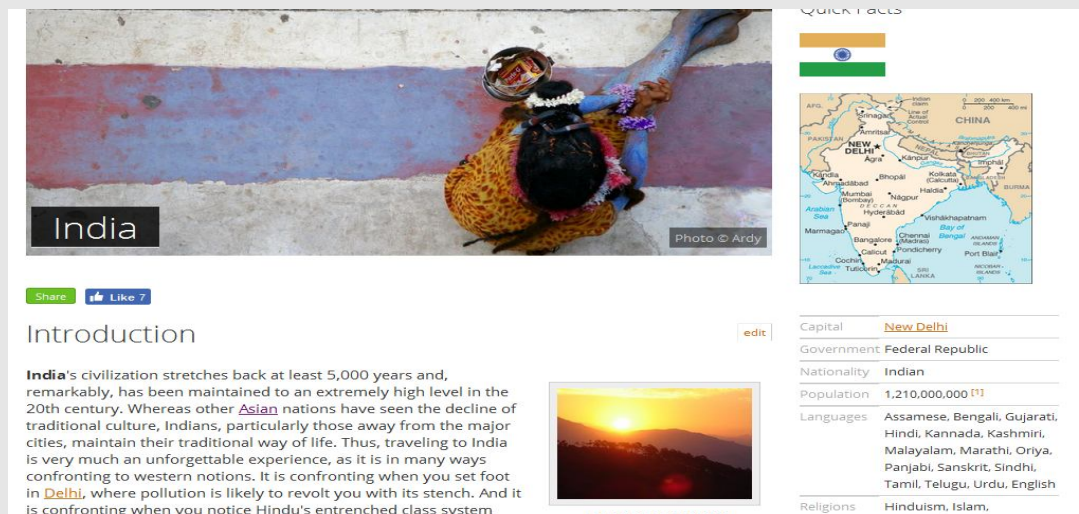

Kind of Information

Travel point's community highlights the best content from community of travel bloggers. One can select a theme to find the interested topics, join the different groups of discussion, travel photos etc.

Entries on accommodation explores different budgeted hotels with road maps, location, information about staffs, food and beverage, ambiance, wifi facilities, breakfast, in-room facilities, spaciousness, cleanliness, spa and gym, freebies, bathroom, bedding, parking and transport, quietness, facilities, views and surroundings, whether the pets are allowed or not etc.

Trip mapping tool will let travellers plot out all their old trips, or plan new ones.

Entries on travel guide of cities include photos, map, flag, quick fact, short description, geography, regions, cities, sights and activities, event and festivals, currency, how to reach to the destination, educational Institution, language, food, health and safety, post and services etc.

India

Share Like 7

Introduction

India's civilization stretches back at least 5,000 years and, remarkably, has been maintained to an extremely high level in the 20th century. Whereas other Asian nations have seen the decline of traditional culture, Indians, particularly those away from the major cities, maintain their traditional way of life. Thus, traveling to India is very much an unforgettable experience, as it is in many ways confronting to western notions. It is confronting when you set foot in **Delhi**, where pollution is likely to revolt you with its stench. And it is confronting when you notice Hindu's entrenched class system

- ❖ Anyone can create own travel blog, upload travel photos, discuss about travel etc.
- ❖ Featured articles are highlighted in this websites.

Arrangement Pattern

Under the option "Guidebook" entries of countries and territories are arranged alphabetically under continent.

Remarks

Travellers point is to enrich the travelling experience by offering numerous services, content and products that have significant perceived and added value for travellers worldwide. To travel means to meet other people, experience their cultures and to make, but also to keep good friends. By bringing more people together - albeit before, during or after travelling - Travellerspoint will create more understanding for different cultures and countries and ultimately a better world for everyone to travel in.
