The Style manual covers the key topics like the guidance of preparing an articles for publishing; standard styles which should be followed for the article writing, i.e. grammar, punctuation, plurals, capitalization, correct and preferred Usage etc.; terminology of abbreviations, nomenclature, eponyms and Greek letters; measurement and quantitation like units of measure, numbers and percentages, study design and statistics, mathematical composition; technical Information like typography, manuscript editing and proofreading, glossary of publishing terms, resources. The manual includes and index.

Kind of Information

The 10th edition of the *AMA Manual of Style* brings this definitive manual into the 21st century with a broadened international perspective and expanded electronic guidelines. Ethical and legal issues receive increased attention, with detailed guidelines on authorship, conflicts of interest, scientific misconduct, intellectual property, and the protection of individuals' rights in scientific research and publication. The *Manual* examines research ethics and editorial independence and features new material on indexing and searching as well as medical nomenclature. More than a style manual, this extensively peer-reviewed, 10th edition offers invaluable guidance on how to navigate the dilemmas that authors and researchers and their institutions, medical editors and publishers, and members of the news media who cover scientific research confront in a society that has thrust these issues center stage.

Remarks

AMA style is widely used, either entirely or with modifications, by hundreds of other scientific journals (including medical and other public health journals), in many textbooks, and in academia (for papers written in classes). Along with APA style and CSE style, it is one of the major style regimes for such work. Many publications have small local style guides that cascade over AMA, APA, or CSE style (for example, "follow AMA style unless otherwise specified herein" or "for issues not addressed herein, follow AMA style").
