Brief History

Datanet India was established as an IT-enabled private limited company in February 2000 to render its services in the socio-economic information domain. Its first web site www.Indiastat.com was launched on 14th November 2000, which was inaugurated by the then Minister of State, Dept. of Statistics, Planning and Public Grievances, Govt. of India.

Scope and Coverage

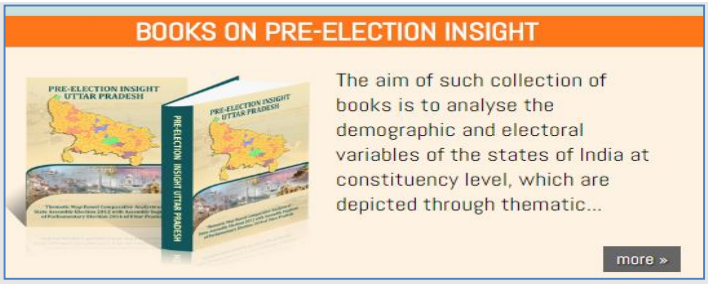
Indiastat.com provides secondary level socio-economic statistical information about India, its states, regions and sector. Indiastat.com is a cluster of 56 associate websites wherein 19 websites are sector-specific, 6 are regional websites and 31 websites are state-specific. Subscribing Indiastat.com will give an automatic access of its 56 associate sites. Indiastat.com contains all the statistical information available on its 56 associate websites. However data is made available separately on these 56 associate sites just for an ease of navigation.

Kind of Information

There are 33 socio-economic categories which are given with particular icons and brief description as shown below:

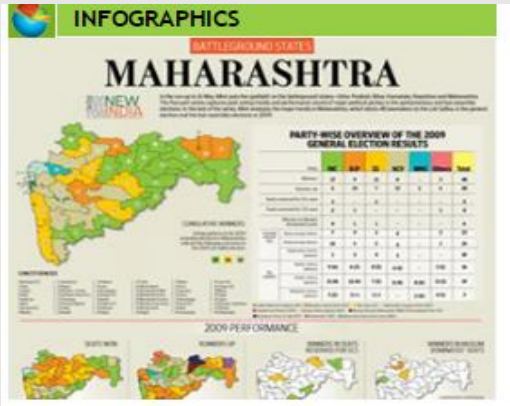
India's key economic indicators are listed in tabular format as shown below:

Publications are given with photographs and brief description. As for example, while any user clicks on the photo of a publication that provides information on its price, about its kind of information, factoids, usefulness, sample etc. Users can buy any publication through online. An example is shown below:



Different types of information can be found from specimen data tables, research papers/reports, testimonials etc. The list of research papers/articles are given where Indiastat is cited. Socio-economic news are given with photographs, related news and date.

In "Infographics" different topics are discussed with related maps and graphical representations. Such as:



It provides sector specific information on various sectors like industry, education, health, banks and financial institutions, companies, co-operatives, crime and law, population, foreign trade, labour and workforce, housing, media, power, transport, urban-rural settlements and economy etc. in a comprehensive and precise manner about India and its states. It also gives socio-economic information on Indian states and union territories.

Special Features

- Users can search anything by using the given search box.
- Hyperlinks of related websites are available. Some of those are electionsinindia.com, datanetindia-ebooks.com etc.
- Data and statistics about India available on Indiastat.com can easily be downloaded in MS-Word/Excel/ HTML formats by institution and corporate users.

Arrangement Pattern	The categories and subcategories of each category are arranged alphabetically as can be seen below: ❖ District ❖ Govt. Info ❖ Local Bodies/CD Blocks ❖ Maps ❖ Overview : States and Union Territories In the specimen data tables, different categories also show alphabetical arrangement as follows:
Remarks	Indiastat.com is an authentic storehouse of secondary level socio-economic statistical information about India. It showcases socio-economic events in national and international levels. The latest statistical highlights concerning the economy and society are compiled and presented in simple and lucid news-story form.
